

# About the Internet & Information Sharing

**The internet is powerful.**

It's our passage to the digital world, where we have access to the 5 billion other people that use it from the palm of our hand.

**Who are the 5 billion users?**

They consist of:

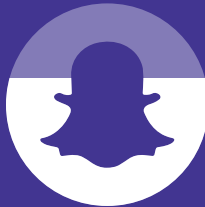

- 😊 Parents
- 😊 Kids
- 😊 Workers
- 😊 Teachers
- 😈 Criminals
- 😈 Predatory people

**UNLESS YOU KNOW THESE PEOPLE IN PERSON, THERE IS NO WAY TO ACTUALLY KNOW WHO SOMEONE IS.**

**BUT WE DO KNOW...**

**90%** of Instagram's users are **adults** over 18.<sup>1</sup>

**80%** of Snapchat's users are **adults** over 18.<sup>2</sup>

The fastest-growing age group on Roblox is **17-24 year olds**.<sup>3</sup>

**So think...**

Are all your accounts equally private?

What information are you sharing online?

**Because staying safe online means staying safe in person.**

# Q&A

## So what is safe vs unsafe information sharing?

You have a bunch of followers on your account. Some of them you know in person and others are people you've met online. Let's brainstorm some things that would be okay and not okay to share:

 WHAT'S OKAY	 WHAT'S NOT OKAY
<b>Non-Revealing Information:</b> <ul style="list-style-type: none"> <li> A movie you just watched</li> <li> A food you like</li> </ul> <hr/> <hr/> <hr/> <hr/>	<b>Revealing Information:</b> <ul style="list-style-type: none"> <li> Names of pets or friends</li> <li> Your sports team</li> </ul> <hr/> <hr/> <hr/> <hr/>
<b>"Safe" Photos:</b> <ul style="list-style-type: none"> <li> A selfie in a plain background with plain clothing</li> <li> A picture of a dish you ate</li> </ul> <hr/> <hr/> <hr/> <hr/>	<b>Non-Safe Photos:</b> <ul style="list-style-type: none"> <li> A picture of yourself in front of your school</li> <li> Pictures of places you hang out</li> </ul> <hr/> <hr/> <hr/> <hr/>
