

Sexting & Peer Exploitation

**Sharing nudes—
everyone does it...right?**

Actually, while **93% of youth** think people their age send nudes...

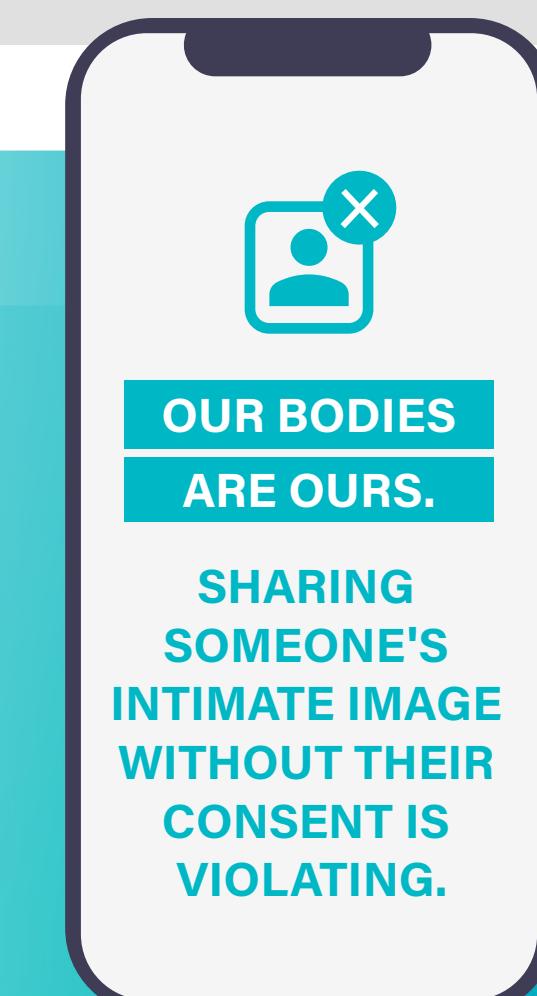

Less than half

of youth have ever sent one.¹

In fact, **62%** of youth who were asked to send a nude did not send one.¹

What's the big deal?

Intimate images and videos can end up being shared without your consent.

1 in 3
of those who have sexted, have had a nude shared without consent.¹

Almost half
of these victims were victimized by a romantic partner or friend.²

In the same way...

Sending a nude without being asked is also violating.

19%

of youth have sent a nude without being asked to.¹

51%

of youth have received an unsolicited sext at least once.¹

**YOU PLAY A ROLE
IN CREATING A CULTURE OF
RESPECT AND CONSENT.**

**It's important to
know your rights.**

The Child Pornography Law
can be used to charge someone for sending, keeping, or sharing nudes without consent.

→ Check out our [Sexting Scenario Animation](#) to see how this plays out.
